

**Stonehill Community
Architectural Committee Meeting
August 11, 2008**

Attending: Paul Brimeyer, Al Giegerich, Bob McCune, Neil McCullough, Karen Neyens,
Darlene Conzett all by email

Because the three requests were straightforward with little reason for discussion, the committee was notified by email. Six of the nine members responded positively to recommend approval of all requests.

Requests

Unit 805: Request #1: Replace sliding patio door and the two windows on either side of the door on the rear of first floor of the unit. All replacements will be the same size, style, and color as the existing door and windows.

The committee recommends approval.

Request #2: Replace deck floor with natural wood deck flooring.

The committee recommends approval.

Unit 838: Replace the Larson combination storm door. The owner proposes to install the same model as the one currently on the house.

The committee recommends approval with the understanding that the color will be the same as is currently on the door.

Correction to the Walkaround Notes of June 2008

The list of homeowners' responsibilities stated a vent problem at unit # 859. The vent problem is actually at unit # 861.

Next Meeting: TBA depending upon the date of the next Board meeting. The date, when set, will be sent to Committee and Board members by email.

Darlene Conzett,
Chairperson, Architectural Committee
